## Cutri to lead directors of foundation

MOUNT KISCO — Barbara Cutri, director of operations of the Boys & Girls Clubs of Northern Westchester, has been named president of the Mount Kisco Library Foundation's board of directors.

"I am honored to have been asked to assist the foundation with the new Mount Kisco Library project," Cutri said. "I am especially excited about the development of new and exciting programs for children and teens."

Cutri has been involved with the Boys & Girls Clubs since 1964, when she enrolled as a member. She has served as the program director, child care director, a pre-school teacher and volunteer. She also is a member of numerous civic and school-related organizations and committees.

The foundation's role is to raise funds for special programs and services, to help pay for the library's new furnishings and equipment, and to help defray the costs of the geo-thermal HVAC system that will be used in the new building. Groundbreaking is anticipated in February. To make a donation to the library foundation, call 914-666-8041 or visit [www.mtklibraryfoundation.org](http://www.mtklibraryfoundation.org).
